

ARNOLD & SON
SINCE 1764

Arnold & Son is honoured in Hong Kong with an award for Best Breakthrough of the Year

Spiral Magazine, Hong Kong's leading watch magazine, presented Arnold & Son with the award for Best Breakthrough of the Year. The accolade was in recognition of the company's outstanding achievements in recent years in terms of image, design, technology and craftsmanship.

Spiral's 2013 Awards went to a selection of outstanding new products from the watchmaking industry launched before cut-off date on 30 June 2013. Awards were divided into 15 categories for different watch types and features, with a shortlist of ten products in each category. An experienced team of journalists selected them for an online public vote and evaluation by an expert jury comprising well-known watch collectors, journalists and luxury watch retailers. Online voting was open between 10 July and 31 August 2013. The results of the public vote were combined with the jury's assessment to produce a final ranking. The top three watches in each category won a commemorative trophy.

Arnold & Son won Best Breakthrough – alongside Jaeger-LeCoultre and Hamilton. Details of the final results can be found in Spiral Magazine and at the Spiral Magazine website.

Time Pyramid
