ARNOLD & SON

SINCE 1764

Arnold & Son belongs to a select group of watchmaking companies in Switzerland entitled to call themselves a manufacture, a French term reserved exclusively for watch manufacturers who develop and produce their own movements in-house. The brand's prowess in the development and production of in-house movements is reflected by an impressive collection of Arnold & Son calibers with a complete range of sophisticated complications. Some measure of its achievement can be found in the fact that five new movements have been launched in 2014: an exceptional achievement that makes Arnold & Son one of the most dynamic manufactures in the watch industry.

Designed and developed entirely at Arnold & Son's workshops in La Chaux-de-Fonds, Switzerland, the collection of timepieces are an inspired combination of the brand's heritage of John Arnold, as one of the greatest watchmakers who ever lived with watchmaking expertise and ingenuity.

Cellini caters to horological enthusiasts with a meticulously curated collection that specializes in rare and innovative mechanical timepieces from the world's finest watchmakers. Located on Madison Avenue and in the Hotel Waldorf-Astoria, Cellini first opened in 1977.
